Rivista di Matematica della Università di Parma is a peer-reviewed journal founded in 1949 and published by the Department of Mathematics and Computer Science at the University of Parma.

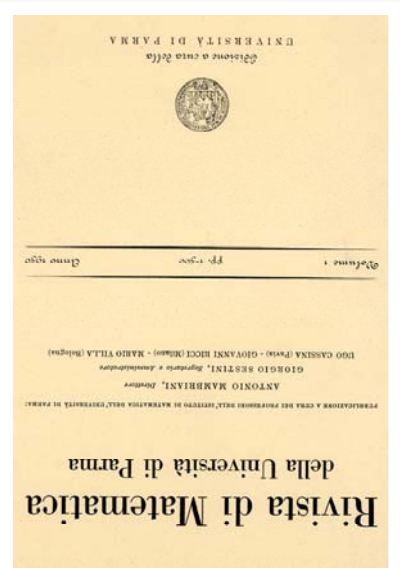
Is devoted to publication of original research and survey papers in all areas of pure and applied mathematics.

All articles will be examined by at least one anonymous international Referee.

Typically, one volume is published each year, and each volume consists of two issues. Usually one of them is a special-purpose issue (e.g. Proceedings).

The journal publishes an electronic version starting from the 1998 edition.

Issues older than five years have open access.



First issue (1950)

The publication of an article in a peer reviewed journal is an essential model for our journal *Rivista di Matematica della Università di Parma*.
It is necessary to agree upon standards of expected ethical behavior for all parties involved in the act of publishing: the author, the journal editor, the peer reviewer and the publisher.
Our ethic statements are based on the Code of Practice of the European Mathematical Society.
